# Monuments to Time....

Our Interactive Spherical Sculptures are massive pieces of high precision solid granite, floating and freely rotating with the water as it flows from beneath the sphere. They are interactive in any direction, and truly magnificent in movement, capturing the attention of young and old alike.

Available in all diameter sizes from 1-10 feet, 100 to 85,000 lbs. Bases are custom designed for any interior or exterior application. Custom Engraving available for all sizes.

These monuments to time will survive for centuries, and represent the finest in stone craftsmanship, original art and design.

Architectural CD available upon request, and we offer no cost 3D design renderings.
